DCYF's New Training Site

We are excited to announce the implementation of a new Learning Management System (LMS) coming in 2023!

DCYF's New Training Site (which will be renamed later), will be a place to find training, complete training, manage training and conference/special events, and apply to become a state-approved trainer.

Key Features

DCYF's New Training Site will have features that will help our learners, training organizations and trainers access and navigate with ease. Some key features include:

- Automated alerts and notifications
- Simplified trainer application process
- Easier training search by topic, location, and more
- Blended and collaborative learning options, including integration
